PLAYSCAPE
PLAYGROUND & SHADING SOLUTIONS

DESIGN – PLAN – CONSTRUCT
CREATING THE PERFECT PLAYGROUND & SHADING SOLUTION

We have a solution...

for all your timber playground, shading & fencing needs!

STANDARD JUNGLE GYMS

Our standard designs makes choosing the right jungle gym a little easier.

CUSTOM JUNGLE GYMS

We specialize in custom built jungle gyms and play structures.

TREE HOUSES & CABINS

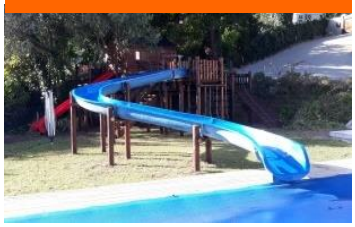

Customized tree houses, tree house platforms and fully enclosed jungle gym cabins.

FREE STANDING GYMS

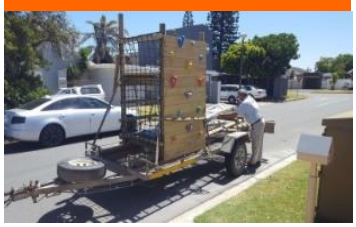

Most of our standard designs can be customized to become a free standing unit.

POOL SLIDES

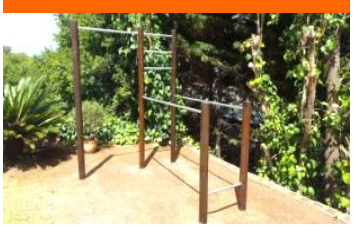

Choose from our standard kiddies pool slides or let us build a fully customized tube slide suitable for adults and kids.

DIY KITS

We will prepare any of our standard or custom designs and have a complete D.I.Y. KIT ready for you to collect.

HOME GYMS

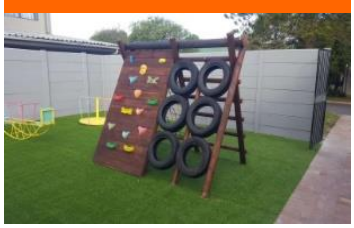

Home gyms for adults & kids
Perfect for:
Calisthenics
Strength Training
Toning & Conditioning

OBSTACLE COURSES

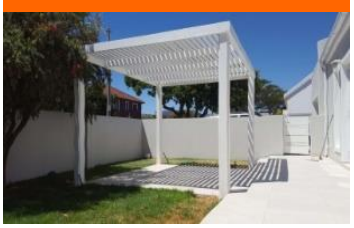

PlayScape offers a variety of obstacle course items to accommodate adults or children.

ACCESSORIES

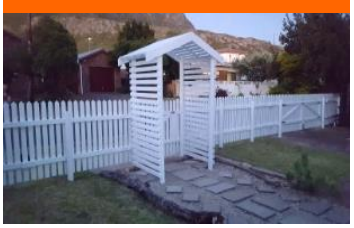

Swings, Slides, Ropes, Nets, Climbing Grips, Trapeze Bars, Hang Tough Rings and more… may be purchased separately.

SHADE PORTS & PERGOLAS

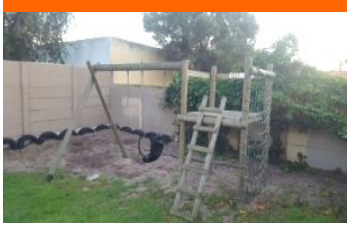

At PlayScape, we'll install the perfect shading solution, customized to fit your space and special requirements..

TIMBER FENCING

We offer a variety of timber fencing and timber screens to compliment your personal style and design objectives.

REPAIRS & MAINTENANCE

PlayScape offers repairs and maintenance, upgrades and relocation of jungle gyms and playground equipment.

TAPERED vs CYLINDRICAL

You have the option to choose between tapered or cylindrical pine poles.

What's the difference?
They're both cut from pine trees. Both options are CCA treated and equally matched in durability.

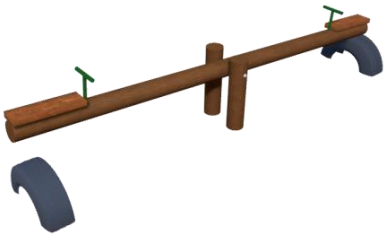

Cylindrical poles are lathe turned (machine turned), ensuring that each pole has an equal diameter throughout their length. Cylindrical poles give a neat, clean-cut look to your jungle gym.

Tapered poles have been "peeled" (sent through a machine to remove the bark). The diameter varies from thick to thin throughout their length, giving a more natural and slightly rustic look to your jungle gym.

Feel free to give us a call if you have any questions.

Prices include all poles, timber, hardware, accessories, sand, stone, cement, wood sealer and installation within a radius of 30km from Milnerton.
NB: All prices exclude a stock delivery fee.
Prices are VAT inclusive.
View our terms & conditions on the last page for full details.

ALPHA 1: Tapered – N/A / Cylindrical – R8,500

Single See-Saw
Floor space - 0.6m x 3.6m

PLAYSCAPE TERMS & CONDITIONS – PREMIUM RANGE

- PRICES ARE VAT INCLUSIVE
- PREMIUM RANGE IS CONSTRUCTED WITH TREATED PINE POLES AND TREATED TIMBER
- STANDARD PLATFORM HEIGHTS ARE 1,4M & 1,2M FROM THE GROUND
- PRICES INCLUDE A WOOD SEALER TO COAT AND PROTECT YOUR STRUCTURE
- PRICES INCLUDE INSTALLATION IN THE CAPE TOWN REGION (see Pricing & Quotations)
- PRICES EXCLUDE A STOCK DELIVERY FEE
- OUR PREMIUM RANGE ALLOWS FOR FULLY CUSTOMIZED DESIGNS
- CLIENTS MAY CHOOSE TO REMOVE OR ADD ON ADDITIONAL COMPONENTS TO MAKE IT YOUR OWN (cost will vary)
- DISCUSS YOUR REQUIREMENTS DURING THE QUOTATION PERIOD SO THAT WE CAN QUOTE ACCORDINGLY

PRICING & QUOTATIONS

Prices include installation within a radius of 30km from Milnerton (unless otherwise discussed and stipulated in your quotation).
Extra traveling, installation & delivery fees will apply for installations further away.
Delivery and installation is not included when ordering a D.I.Y. KIT or when purchasing any of our loose components and accessories, separately.
Prices include VAT.
All prices exclude a stock delivery fee. Stock delivery fees are the costs from our suppliers to deliver stock/material to your premises.
Poles & timber, sand & stone or other materials / stock will be delivered directly from our supplier to your premises. The cost will be calculated according to your location and the size of your order. Delivery costs will be stipulated in our quotation and added to the total of your order.
Our prices are based on installations done on a flat / level, soft soiled or regular grassed area. Additional costs may apply for sloped surfaces, areas with access limitations, stairs or areas that are awkward to reach or work in. Additional costs may also apply for special machinery / tools, labour and possible delays in workmanship when installing into hard or rocky surfaces or where an area needs to be prepped before we can start with the installation.
It is the client's responsibility to notify us during the quotation period of any special flooring and the type of surface area we will be installing on.
Additional costs will apply for installations done on paving, tar, cement, tiles, rubberized flooring and artificial grass.
Although we try our very best to work as carefully as possible on your special flooring, PlayScape will not be held liable for any damages to the aforementioned surfaces. Ideally, your jungle gym should be installed before you have the flooring installed. Should we need to work on any of these surfaces, then any damages and the closing up of the holes where we have planted the upright poles is for the client's own account.
Any changes to design, layout, special requests, unforeseen or additional work, extra materials or tools required during or after installation will be for the client's account and invoiced accordingly.
Quotations are valid for 14 days only.

INSTALLATION

A scheduled delivery of materials to your premises will take place prior to the installation date and will be communicated with you.
On the day of installation, we will arrive at your premises and will need to liaise with someone regarding the positioning of the structure. The exact positioning of the structure must be confirmed before we start with the construction. Additional costs will apply to move or reposition the structure if we have already started or completed the installation.
We will need access to water and an electrical point. If this is not available, then please discuss this during the quotation period so that we can arrange for alternative provisions and quote accordingly.
The client is responsible to make sure that the installation area is cleared of plants, trees and unwanted structures before the installation date.
Additional costs will apply if we need to prune, cut or clear any vegetation or unwanted structures when we arrive on site.
NB: Please note that we do not remove plants, trees, sand, rocks, rubble or unwanted structures from your premises. This is for the client's own account.
The client is responsible to indicate underground pipes, cables, irrigation and plants which could be damaged. Damages will be for the client's account if we are not notified before we start with the installation.
Installations take place weather permitting and will be rescheduled accordingly.
Any unforeseen circumstances which may cause delays on site will be discussed with our client and where applicable extra costs may apply.
Once the installation is completed and before we leave your premises, we will need to liaise with someone to finalize the installation and sign off the project.
Please allow a minimum period of 24 hours after the structure has been installed before use. This will give the cement time to set and the sealer time to dry. (unless otherwise discussed)

POST INSTALLATION

PlayScape will not be liable for any injury, disablement or death arising from improper use or inadequate maintenance of the structure. Inadequate maintenance includes any post-installation additions or repairs to the structure.

PAYMENT

A 75% deposit is required upfront. The outstanding balance is due and payable on the day of completion.
An installation date will be confirmed once we receive proof of payment for the deposit amount.
All structures installed by PlayScape will remain our property until the total amount due has been settled in full.

WARRANTY

All new structures supplied and installed by PlayScape will be to the best of our knowledge, free from manufacturing defects. All hardware, accessories and components which have been outsourced will carry the manufacturers guarantee.
Should a component or accessory fail under normal use or due to undetected manufacturing defects, and within a period of 12 months from the installation date, then PlayScape will at our own discretion and after investigation, either quote accordingly, repair or replace the damaged component or accessory.
This warranty does not cover any damages or failure of components or accessories due to misuse, vandalism, pets, 3rd party repairs or modification or extreme weather conditions.
Our workmanship is guaranteed for 12 months from the date of installation.

All structures installed by PlayScape will remain our property until the total amount due has been settled in full.

WARRANTY

All new structures supplied and installed by PlayScape will be to the best of our knowledge, free from manufacturing defects. All hardware, accessories and components which have been outsourced will carry the manufacturers guarantee.
Should a component or accessory fail under normal use or due to undetected manufacturing defects, and within a period of 12 months from the installation date, then PlayScape will at our own discretion and after investigation, either quote accordingly, repair or replace the damaged component or accessory.
This warranty does not cover any damages or failure of components or accessories due to misuse, vandalism, pets, 3rd party repairs or modification or extreme weather conditions.
Our workmanship is guaranteed for 12 months from the date of installation.

PLAYSCAPE TERMS & CONDITIONS – GUM POLE RANGE

- PRICES ARE VAT INCLUSIVE
- GUM POLE RANGE IS CONSTRUCTED WITH TREATED GUM POLES AND TREATED TIMBER
- STANDARD PLATFORM HEIGHTS ARE 1,4M & 1,2M FROM THE GROUND
- PRICES INCLUDE A WOOD SEALER TO COAT AND PROTECT YOUR STRUCTURE
- PRICES INCLUDE INSTALLATION IN THE CAPE TOWN REGION (see Pricing & Quotations)
- PRICES EXCLUDE A STOCK DELIVERY FEE
- OUR GUM POLE RANGE ALLOWS FOR FULLY CUSTOMIZED DESIGNS
- CLIENTS MAY CHOOSE TO REMOVE OR ADD ON ADDITIONAL COMPONENTS TO MAKE IT YOUR OWN (cost will vary)
- DISCUSS YOUR REQUIREMENTS DURING THE QUOTATION PERIOD SO THAT WE CAN QUOTE ACCORDINGLY

PRICING & QUOTATIONS

Prices include installation within a radius of 30km from Milnerton (unless otherwise discussed and stipulated in your quotation).
Extra traveling, installation & delivery fees will apply for installations further away.
Delivery and installation is not included when ordering a D.I.Y. KIT or when purchasing any of our loose components and accessories, separately.
Prices include VAT.
All prices exclude a stock delivery fee. Stock delivery fees are the costs from our suppliers to deliver stock/material to your premises.
Poles & timber, sand & stone or other materials / stock will be delivered directly from our supplier to your premises. The cost will be calculated according to your location and the size of your order. Delivery costs will be stipulated in our quotation and added to the total of your order.
Our prices are based on installations done on a flat / level, soft soiled or regular grassed area. Additional costs may apply for sloped surfaces, areas with access limitations, stairs or areas that are awkward to reach or work in. Additional costs may also apply for special machinery / tools, labour and possible delays in workmanship when installing into hard or rocky surfaces or where an area needs to be prepped before we can start with the installation.
It is the client's responsibility to notify us during the quotation period of any special flooring and the type of surface area we will be installing on.
Additional costs will apply for installations done on paving, tar, cement, tiles, rubberized flooring and artificial grass.
Although we try our very best to work as carefully as possible on your special flooring, PlayScape will not be held liable for any damages to the aforementioned surfaces. Ideally, your jungle gym should be installed before you have the flooring installed. Should we need to work on any of these surfaces, then any damages and the closing up of the holes where we have planted the upright poles is for the client's own account.
Any changes to design, layout, special requests, unforeseen or additional work, extra materials or tools required during or after installation will be for the client's account and invoiced accordingly.
Quotations are valid for 14 days only.

INSTALLATION

A scheduled delivery of materials to your premises will take place prior to the installation date and will be communicated with you.
On the day of installation, we will arrive at your premises and will need to liaise with someone regarding the positioning of the structure. The exact positioning of the structure must be confirmed before we start with the construction. Additional costs will apply to move or reposition the structure if we have already started or completed the installation.
We will need access to water and an electrical point. If this is not available, then please discuss this during the quotation period so that we can arrange for alternative provisions and quote accordingly.
The client is responsible to make sure that the installation area is cleared of plants, trees and unwanted structures before the installation date.
Additional costs will apply if we need to prune, cut or clear any vegetation or unwanted structures when we arrive on site.
NB: Please note that we do not remove plants, trees, sand, rocks, rubble or unwanted structures from your premises. This is for the client's own account.
The client is responsible to indicate underground pipes, cables, irrigation and plants which could be damaged. Damages will be for the client's account if we are not notified before we start with the installation.
Installations take place weather permitting and will be rescheduled accordingly.
Any unforeseen circumstances which may cause delays on site will be discussed with our client and where applicable extra costs may apply.
Once the installation is completed and before we leave your premises, we will need to liaise with someone to finalize the installation and sign off the project.
Please allow a minimum period of 24 hours after the structure has been installed before use. This will give the cement time to set and the sealer time to dry. (unless otherwise discussed)

POST INSTALLATION

PlayScape will not be liable for any injury, disablement or death arising from improper use or inadequate maintenance of the structure. Inadequate maintenance includes any post-installation additions or repairs to the structure.

PAYMENT

A 75% deposit is required upfront. The outstanding balance is due and payable on the day of completion.
An installation date will be confirmed once we receive proof of payment for the deposit amount.
All structures installed by PlayScape will remain our property until the total amount due has been settled in full.

WARRANTY

All new structures supplied and installed by PlayScape will be to the best of our knowledge, free from manufacturing defects. All hardware, accessories and components which have been outsourced will carry the manufacturers guarantee.
Should a component or accessory fail under normal use or due to undetected manufacturing defects, and within a period of 12 months from the installation date, then PlayScape will at our own discretion and after investigation, either quote accordingly, repair or replace the damaged component or accessory.
This warranty does not cover any damages or failure of components or accessories due to misuse, vandalism, pets, 3rd party repairs or modification or extreme weather conditions.
Our workmanship is guaranteed for 12 months from the date of installation.

- CLIENTS MAY CHOOSE TO REMOVE OR ADD ON ADDITIONAL COMPONENTS TO MAKE IT YOUR OWN (cost will vary)
- DISCUSS YOUR REQUIREMENTS DURING THE QUOTATION PERIOD SO THAT WE CAN QUOTE ACCORDINGLY

PRICING & QUOTATIONS

Prices include installation within a radius of 30km from Milnerton (unless otherwise discussed and stipulated in your quotation).
Extra traveling, installation & delivery fees will apply for installations further away.
Delivery and installation is not included when ordering a D.I.Y. KIT or when purchasing any of our loose components and accessories, separately.
Prices include VAT.
All prices exclude a stock delivery fee. Stock delivery fees are the costs from our suppliers to deliver stock/material to your premises.
Poles & timber, sand & stone or other materials / stock will be delivered directly from our supplier to your premises. The cost will be calculated according to your location and the size of your order. Delivery costs will be stipulated in our quotation and added to the total of your order.
Our prices are based on installations done on a flat / level, soft soiled or regular grassed area. Additional costs may apply for sloped surfaces, areas with access limitations, stairs or areas that are awkward to reach or work in. Additional costs may also apply for special machinery / tools, labour and possible delays in workmanship when installing into hard or rocky surfaces or where an area needs to be prepped before we can start with the installation.
It is the client's responsibility to notify us during the quotation period of any special flooring and the type of surface area we will be installing on.
Additional costs will apply for installations done on paving, tar, cement, tiles, rubberized flooring and artificial grass.
Although we try our very best to work as carefully as possible on your special flooring, PlayScape will not be held liable for any damages to the aforementioned surfaces. Ideally, your jungle gym should be installed before you have the flooring installed. Should we need to work on any of these surfaces, then any damages and the closing up of the holes where we have planted the upright poles is for the client's own account.
Any changes to design, layout, special requests, unforeseen or additional work, extra materials or tools required during or after installation will be for the client's account and invoiced accordingly.
Quotations are valid for 14 days only.

INSTALLATION

A scheduled delivery of materials to your premises will take place prior to the installation date and will be communicated with you.
On the day of installation, we will arrive at your premises and will need to liaise with someone regarding the positioning of the structure. The exact positioning of the structure must be confirmed before we start with the construction. Additional costs will apply to move or reposition the structure if we have already started or completed the installation.
We will need access to water and an electrical point. If this is not available, then please discuss this during the quotation period so that we can arrange for alternative provisions and quote accordingly.
The client is responsible to make sure that the installation area is cleared of plants, trees and unwanted structures before the installation date.
Additional costs will apply if we need to prune, cut or clear any vegetation or unwanted structures when we arrive on site.
NB: Please note that we do not remove plants, trees, sand, rocks, rubble or unwanted structures from your premises. This is for the client's own account.
The client is responsible to indicate underground pipes, cables, irrigation and plants which could be damaged. Damages will be for the client's account if we are not notified before we start with the installation.
Installations take place weather permitting and will be rescheduled accordingly.
Any unforeseen circumstances which may cause delays on site will be discussed with our client and where applicable extra costs may apply.
Once the installation is completed and before we leave your premises, we will need to liaise with someone to finalize the installation and sign off the project.
Please allow a minimum period of 24 hours after the structure has been installed before use. This will give the cement time to set and the sealer time to dry. (unless otherwise discussed)

POST INSTALLATION

PlayScape will not be liable for any injury, disablement or death arising from improper use or inadequate maintenance of the structure. Inadequate maintenance includes any post-installation additions or repairs to the structure.

PAYMENT

A 75% deposit is required upfront. The outstanding balance is due and payable on the day of completion.
An installation date will be confirmed once we receive proof of payment for the deposit amount.
All structures installed by PlayScape will remain our property until the total amount due has been settled in full.

WARRANTY

All new structures supplied and installed by PlayScape will be to the best of our knowledge, free from manufacturing defects. All hardware, accessories and components which have been outsourced will carry the manufacturers guarantee.
Should a component or accessory fail under normal use or due to undetected manufacturing defects, and within a period of 12 months from the installation date, then PlayScape will at our own discretion and after investigation, either quote accordingly, repair or replace the damaged component or accessory.
This warranty does not cover any damages or failure of components or accessories due to misuse, vandalism, pets, 3rd party repairs or modification or extreme weather conditions.
Our workmanship is guaranteed for 12 months from the date of installation.

CREATING THE PERFECT PLAYGROUND & SHADING SOLUTION

OBSTACLE COURSE BROCHURE

An obstacle course is a series of challenging, physical obstacles. It may include running, climbing, jumping, crawling and balancing elements with the aim of testing speed, endurance and agility.

At PlayScape we offer a large variety of obstacle course items. We design and construct each obstacle course in accordance with the client's special or physical needs. Obstacle courses are custom built to accommodate adults or children.

Contact us on **071 131 0962** to discuss the various options.

PLAYSCAPE TERMS & CONDITIONS – OBSTACLE COURSE COMPONENTS

- PRICES ARE VAT INCLUSIVE
- OBSTACLE COURSE COMPONENTS ARE CONSTRUCTED WITH TREATED MACHINE TURNED, CYLINDRICAL PINE POLES AND TREATED TIMBER
- PRICES INCLUDE A WOOD SEALER TO COAT AND PROTECT YOUR STRUCTURE
- PRICES INCLUDE INSTALLATION IN THE CAPE TOWN REGION (see Pricing & Quotations)
- PRICES EXCLUDE A STOCK DELIVERY FEE
- CLIENTS MAY CHOOSE TO REMOVE OR ADD ON ADDITIONAL COMPONENTS TO MAKE IT YOUR OWN (cost will vary)
- DISCUSS YOUR REQUIREMENTS DURING THE QUOTATION PERIOD SO THAT WE CAN QUOTE ACCORDINGLY

PRICING & QUOTATIONS

Prices include installation within a radius of 30km from Milnerton (unless otherwise discussed and stipulated in your quotation).
Extra traveling, installation & delivery fees will apply for installations further away.
Delivery and installation is not included when ordering a D.I.Y. KIT or when purchasing any of our loose components and accessories, separately.
Prices include VAT.
All prices exclude a stock delivery fee. Stock delivery fees are the costs from our suppliers to deliver stock/material to your premises.
Poles & timber, sand & stone or other materials / stock will be delivered directly from our supplier to your premises. The cost will be calculated according to your location and the size of your order. Delivery costs will be stipulated in our quotation and added to the total of your order.
Our prices are based on installations done on a flat / level, soft soiled or regular grassed area. Additional costs may apply for sloped surfaces, areas with access limitations, stairs or areas that are awkward to reach or work in. Additional costs may also apply for special machinery / tools, labour and possible delays in workmanship when installing into hard or rocky surfaces or where an area needs to be prepped before we can start with the installation.
It is the client's responsibility to notify us during the quotation period of any special flooring and the type of surface area we will be installing on.
Additional costs will apply for installations done on paving, tar, cement, tiles, rubberized flooring and artificial grass.
Although we try our very best to work as carefully as possible on your special flooring, PlayScape will not be held liable for any damages to the aforementioned surfaces. Ideally, your jungle gym should be installed before you have the flooring installed. Should we need to work on any of these surfaces, then any damages and the closing up of the holes where we have planted the upright poles is for the client's own account.
Any changes to design, layout, special requests, unforeseen or additional work, extra materials or tools required during or after installation will be for the client's account and invoiced accordingly.
Quotations are valid for 14 days only.

INSTALLATION

A scheduled delivery of materials to your premises will take place prior to the installation date and will be communicated with you.
On the day of installation, we will arrive at your premises and will need to liaise with someone regarding the positioning of the structure. The exact positioning of the structure must be confirmed before we start with the construction. Additional costs will apply to move or reposition the structure if we have already started or completed the installation.
We will need access to water and an electrical point. If this is not available, then please discuss this during the quotation period so that we can arrange for alternative provisions and quote accordingly.
The client is responsible to make sure that the installation area is cleared of plants, trees and unwanted structures before the installation date.
Additional costs will apply if we need to prune, cut or clear any vegetation or unwanted structures when we arrive on site.
NB: Please note that we do not remove plants, trees, sand, rocks, rubble or unwanted structures from your premises. This is for the client's own account.
The client is responsible to indicate underground pipes, cables, irrigation and plants which could be damaged. Damages will be for the client's account if we are not notified before we start with the installation.
Installations take place weather permitting and will be rescheduled accordingly.
Any unforeseen circumstances which may cause delays on site will be discussed with our client and where applicable extra costs may apply.
Once the installation is completed and before we leave your premises, we will need to liaise with someone to finalize the installation and sign off the project.
Please allow a minimum period of 24 hours after the structure has been installed before use. This will give the cement time to set and the sealer time to dry. (unless otherwise discussed)

POST INSTALLATION

PlayScape will not be liable for any injury, disablement or death arising from improper use or inadequate maintenance of the structure. Inadequate maintenance includes any post-installation additions or repairs to the structure.

PAYMENT

A 75% deposit is required upfront. The outstanding balance is due and payable on the day of completion.
An installation date will be confirmed once we receive proof of payment for the deposit amount.
All structures installed by PlayScape will remain our property until the total amount due has been settled in full.

WARRANTY

All new structures supplied and installed by PlayScape will be to the best of our knowledge, free from manufacturing defects. All hardware, accessories and components which have been outsourced will carry the manufacturers guarantee.
Should a component or accessory fail under normal use or due to undetected manufacturing defects, and within a period of 12 months from the installation date, then PlayScape will at our own discretion and after investigation, either quote accordingly, repair or replace the damaged component or accessory.
This warranty does not cover any damages or failure of components or accessories due to misuse, vandalism, pets, 3rd party repairs or modification or extreme weather conditions.
Our workmanship is guaranteed for 12 months from the date of installation.

DO-IT-YOURSELF

Thinking of a fun weekend project? How about a team building or community project?
Would you like to purchase a jungle gym but geographically you're too far for us to do the installation?

Then why not consider a D.I.Y. KIT? We will prepare any of our standard or custom designs and have a complete D.I.Y. KIT ready for you to collect.

D.I.Y KITS are easy enough to install with just a few basic tools and an extra hand or two... We include all the timber and poles, all the hardware and all the jungle gym accessories. Some of the components will already be made up for you, making the installation even easier. We also include an installation guide which is easy to read and understand.

Contact us today to discuss Your options!

REPAIRS & MAINTENANCE

The importance of maintenance:
Maintaining your outdoor timber structures is of utmost importance. Timber is a natural product and when it's used for exterior construction, it can certainly take a punishing from the weather elements. Exposed timber is prone to splitting and aging if the timber is not regularly maintained.
If left unattended for long periods of time, the timber will become unsightly, structurally unsafe and very expensive to repair.
We recommend that all outdoor timber structures be coated with an exterior timber preservative or wood sealer. The coating will penetrate into the wood to seal and protect it from extreme weather conditions.
We also highly recommend that your exterior timber structures and especially outdoor playground equipment be serviced and re-coated annually.

Your timber structure (especially playground equipment) should be professionally assessed for the following:
The stability of the structure should be checked. If the structure is wobbly or unstable, it might need to be re-concreted or fastened where needed.
Tightening and/or replacing nails, screws, nuts and bolts
Loose timber slats should be fastened or replaced where needed.
Broken or cracked poles and timber should be replaced.
All suspended items should be thoroughly checked for any damages or obstructions.
Steel components should be checked for corrosion and repaired or replaced if damaged.
Ropes and nets should be inspected and replaced if damaged.
Fibreglass and plastic accessories should be checked for cracks and chips and should be repaired or replaced if damaged.
The overall structure should be checked for any deficiencies and malfunctioning.
Re-coating of the structure if necessary.

PlayScape offers the following services:
Repairs and maintenance to existing outdoor timber structures and playground equipment.
Re-coating of outdoor timber structures
Relocation of timber playground equipment
Upgrades and adding on to existing structures
Annual maintenance
Maintenance inspections

WE ALSO OFFER MAINTENANCE CONTRACTS
